This table includes regions of low-quality coverage for the Bone Marrow Failure panel and therefore variant calling may be limited.

Gene	Genomic Region (Hg19)	Gene Region	Canonical Transcript
CDAN1	chr15:43029332-43029416	Exon 2	NM_138477.4
GFI1	chr1:92946392-92946436	Exon 4	NM_005263.5
HOXA11	chr7:27224203-27224228	Exon 1	NM_005523.6

If you are a clinician and have a strong clinical suspicion of a disorder associated with a condition in a gene listed in this table, please contact the laboratory and additional orthogonal sequencing may be considered.
