

This table includes regions of low-quality coverage for the Cholestasis panel and therefore variant calling may be limited.

<i>Gene</i>	Genomic Region (Hg19)	Gene Region	Canonical Transcript
<i>PEX10</i>	chr1:2343831-2343876	Exon 1	NM_002617.4

If you are a clinician and have a strong clinical suspicion of a disorder associated with a condition in a gene listed in this table, please contact the laboratory and additional orthogonal sequencing may be considered.
