

This table includes regions of low-quality coverage for the Epilepsy panel and therefore variant calling may be limited.

Gene	Genomic Region (Hg19)	Gene Region	Canonical Transcript
<i>CACNA1A</i>	chr19:13409492-13409511 chr19:13319615-13319618	Exon 19 Exon 46	NM_001127222.2
<i>KCNQ3</i>	chr8:133492694-133492779	Exon 1	NM_004519.4

If you are a clinician and have a strong clinical suspicion of a disorder associated with a condition in a gene listed in this table, please contact the laboratory and additional orthogonal sequencing may be considered.
