This table includes regions of low-quality coverage for the Migraines and Strokes panel and therefore variant calling may be limited.

Gene	Genomic Region (Hg19)	Gene Region	Canonical Transcript
CACNA1A	chr19:13409492-13409511; chr19:13319615-13319618	Exon 19, Exon 46	NM_001127222.2
NOTCH3	chr19:15311601-15311716; chr19:15288543-15288731	Exon 1; Exon 24	NM_000435.3

If you are a clinician and have a strong clinical suspicion of a disorder associated with a condition in a gene listed in this table, please contact the laboratory and additional orthogonal sequencing may be considered.
